This dog has been immunised. The health and vaccination book attest this fact.

At the admission, the animal's owner should stipulate the menu he feeds his dog and any particular concerns he/she might have, also if medication should be administered. Medications are to be supplied by the owner.

**Medicine and dosage :** \_\_\_\_\_

The owner is required to bring two blanket or large towel which we can place in our dog basket. We prefer to use our own baskets as they are plastic and are therefore easier to disinfect. *This is why wicker work baskets cannot be allowed. The dog's toys are welcome*

D.P.I. is veterinary controlled. The vet is available immediately in an emergency

Every dog entering the kennels must have its yearly inoculations for distemper, hepatitis, leptospirits, parvovirus and kennel cough. At night time he will be locked in his kennel. If your dog is aggressive it will be segregated from the other dogs. In any case, It will be treated with affection.
